Independent Auditor's Report to the Members of Shop, Distributive and Allied Employees Association, Tasmania Branch.

Opinion

We have audited the financial report of Shop, Distributive and Allied Employees Association, Tasmania Branch (the "Association") which comprises the statement of financial position as at 30 June 2021, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, subsection 255(2A) report, officer's declaration report, and the declaration of the State Council.

In our opinion, the accompanying financial report presents fairly, in all material respects, the Association's financial position as at 30 June 2021 and of its financial performance and its cash flows for the year then ended in accordance with Australian Accounting Standards and the Association constitution and the requirements imposed by Part 3 of Chapter 8 of the Fair Work (Registered Organisations) Act 2009.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Association in accordance with the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note 3 in the financial report which indicates the attached financial report has been re-issued, and supersedes the financial report signed by the State Council on 15 September 2021 and lodged with the Registered Organisations Commission (ROC) on 17 November 2021. This audit report supersedes our audit report dated 17 September 2021 relating to the previously issued and now superseded financial report. Our opinion is not modified in respect of this matter.

Other Information

State Council are responsible for the other information. The other information comprises the information included in the Association's annual report for the year ended 30 June 2021, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management State Council for the Financial Report

Management of the Entity is responsible for the preparation of the financial report in accordance with Australian Accounting Standards and the Association constitution and the requirements imposed by Part 3 of Chapter 8 of the Fair Work (Registered Organisations) Act 2009 and for such internal control as State Council determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, management is responsible for assessing the ability of the Association to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intend to liquidate the Association or to cease operations, or has no realistic alternative but to do so.

State Council are responsible for overseeing the Association's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control.

Deloitte.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Association's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Association to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with State Council regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Stuart Dare is an approved auditor under section 256 of the Fair Work (Registered Organisations) Act 2009. He is a member of the Chartered Accountants Australia and New Zealand (CA ANZ) and holds a current Public Practice Certificate.

For the year ended 30 June 2021

On the <u>5</u> April 2022 the State Council of the Shop, Distributive and Allied Employees Association, Tasmanian Branch passed the following resolution in relation to the general purpose financial report (GPFR) for the year ended 30 June 2021:

The State Council declares that in its opinion:

- (a) the financial statements and notes comply with the Australian Accounting Standards;
- (b) the financial statements and notes comply with any other requirements imposed by the Reporting Guidelines or Part 3 of Chapter 8 of the Fair Work (Registered Organisations) Act 2009 (the RO Act);
- (c) the financial statements and notes give a true and fair view of the financial performance, financial position and cash flows of the reporting unit for the financial year to which they relate;
- (d) there are reasonable grounds to believe that the reporting unit will be able to pay its debts as and when they become due and payable; and
- (e) during the financial year to which the GPFR relates and since the end of that year:
 - (i) meetings of the State Council were held in accordance with the rules of the organisation including the rules of a branch concerned; and
 - (ii) the financial affairs of the reporting unit have been managed in accordance with the rules of the organisation including the rules of a branch concerned; and
 - (iii) the financial records of the reporting unit have been kept and maintained in accordance with the RO Act; and
 - (iv) where the organisation consists of two or more reporting units, the financial records of the reporting unit have been kept, as far as practicable, in a consistent manner with each of the other reporting units of the organisation; and
 - (v) where information has been sought in any request by a member of the reporting unit or Commissioner duly made under section 272 of the RO Act has been provided to the member or Commissioner; and
 - (vi) where any order for inspection of financial records has been made by the Fair Work Commission under section 273 of the RO Act, there has been compliance.

This declaration is made in accordance with a resolution of the State Council.

1. General information

Shop, Distributive and Allied Employees Association, Tasmanian Branch is the Tasmanian branch of the national Shop, Distributive and Allied Employees Association. The Association's registered office and its principal place of business are as follows:

Registered office

72 York Street Launceston TASMANIA 7250

Principal place of business

72 York Street Launceston TASMANIA 7250

2. Adoption of new and revised Accounting Standards

2.1 New and revised AASBs affecting amounts reported and/or disclosures in the financial statements

In the current year, the Association has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are relevant to its operations and effective for the current annual reporting period. The adoption of these new and revised Standards and Interpretations has not had a material impact on the current or prior periods.

2.2 New and revised Australian Accounting Standards in issue but not yet effective

At the date of authorisation of the financial statements, the Association has not applied the following new and revised Australian Accounting Standards, Interpretations and amendments that have been issued but are not yet effective:

Standard/Amendment

Effective for annual reporting periods beginning on or after

AASB 2020-1 Amendments to Australian Accounting Standards

1 January 2022

- Classification of Liabilities as Current or Non-Current

AASB 2020-3 Amendments to Australian Accounting Standards – Annual Improvements 2018-2020 and Other Amendments

1 January 2022

AASB 2020-4 Amendments to Australian Accounting Standards

1 June 2020

- Covid-19-Related Rent Concessions

3. Significant accounting policies

Statement of compliance

The financial report is a general purpose financial report which has been prepared in accordance with the Association's constitution, the requirements of the Fair Work (Registered Organisations) Act 2009, Australian Accounting Standards and Interpretations, and complies with other requirements of the law. The financial report includes the financial statements of the Association. For the purposes of preparing the financial statements, the Association is a not-for-profit entity.

The financial statements were authorised for issue by the State Council on _5_ April 2022. The financial statements have been reissued, and supersede the financial statements signed by the State Council on 15 September 2021. There has been no changes to the reported financial results or balances in the re-issued financial statements. At the request of the Registered Organisations Committee, the following note disclosures have been expanded and/or amended in the re-issued financial statements: Note 4 Revenue, Note 5 Profit for the year, Note 10 Property, Plant & Equipment, Note 13 Leases, Note 20 Notes to the Statement of Cash Flows and Note 21 Fair Value Measurement.

Basis of preparation

The financial report has been prepared on the basis of historical cost, except for the revaluation of certain non-current assets and financial instruments. Historical cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars.

The following significant accounting policies have been adopted in the preparation and presentation of the financial report:

(a) Borrowing costs

Borrowing costs are recognised in profit or loss in the period in which they are incurred.

(b) Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(c) Employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave when it is probable that settlement will be required and they are capable of being measured reliably.

Liabilities recognised in respect of employee benefits expected to be settled within 12 months, are measured at their nominal values using the remuneration rate expected to apply at the time of settlement.

Liabilities recognised in respect of employee benefits which are not expected to be settled within 12 months are measured as the present value of the estimated future cash outflows to be made by the association in respect of services provided by employees up to reporting date.

Defined contribution plans

Contributions to defined contribution superannuation plans are expensed when incurred.

(d) Financial instruments

Financial assets and financial liabilities are recognised when the Association becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

3. Significant accounting policies (cont'd)

(e) Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

Debt instruments that meet the following conditions are measured subsequently at amortised cost:

- The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Association does not irrevocably designate debt instruments that meet the conditions of amortised cost as fair value through other comprehensive income (FVTOCI), therefore by default all other financial assets are measured subsequently at fair value through profit or loss (FVTPL).

Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial assets the effective interest rate is the rate that exactly discounts estimated future cash receipts excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost (see above) are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss to the extent they are not part of a designated hedging relationship.

3. Significant accounting policies (cont'd)

(e) Financial assets (cont'd)

Impairment of financial assets

The Association recognises a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost, trade receivables and contract assets. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Association always recognises lifetime ECL for trade receivables and contract assets. The expected credit losses on these financial assets are estimated using a provision matrix based on the Association's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Association recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Association measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Write-off policy

The Association writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Association's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Measurement and recognition of expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Association's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Association in accordance with the contract and all the cash flows that the Association expects to receive, discounted at the original effective interest rate.

If the Association has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Association measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

De-recognition of financial assets

The Association derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Association neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Association recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Association retains substantially all the risks and rewards of ownership of a transferred financial asset, the Association continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On de-recognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

SHOP, DISTRIBUTIVE AND ALLIED EMPLOYEES ASSOCIATION TASMANIAN BRANCH

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 JUNE 2021

3. Significant accounting policies (cont'd)

(f) Financial liabilities

All financial liabilities are measured subsequently at amortised cost using the effective interest method or at FVTPL in certain circumstances, however the Association does not currently designate financial liabilities as FVTPL or hold liabilities for trading and therefore by default all the Association's financial liabilities are measured at amortised cost.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

The Association derecognises financial liabilities when, and only when, the Association's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

(g) Income Tax

The Association is exempt from income tax under section 50.1 of the Income Tax Assessment Act 1997 however still has obligation for Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).

(h) Inventories

Inventories are valued at the lower of cost and net realisable value. Costs, are assigned to inventory on hand by the method most appropriate to each particular class of inventory, with the majority being valued on a first in first out basis. Net realisable value represents the estimated selling price less all estimated costs of completion and costs necessary to make the sale.

(i) Property, plant and equipment

Purchases of land, buildings, plant and equipment are recognised initially at cost in the Statement of Financial Position. The initial cost of an asset includes an estimate of the cost of dismantling and removing the item and restoring the site on which it is Following initial recognition at cost, land and buildings are carried at fair value less subsequent accumulated depreciation and accumulated impairment losses. Revaluations are performed with sufficient frequency such that the carrying amount of assets do not differ materially from those that would be determined using fair values as at the reporting date.

(j) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

Sale of goods

Revenue from subscriptions is accounted for on an accrual basis and is recorded as revenue in the year to which it relates.

Sale of goods

Revenue from the sale of goods is recognised when all the following conditions are satisfied:

- (a) the Association has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (b) the Association retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (c) the amount of revenue can be measured reliably;
- (d) it is probable that the economic benefits associated with the transaction will flow to the entity; and
- (e) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Rendering of services

Revenue from a contract to provide services is recognised by reference to the stage of completion of the contract. Member subscriptions and car park rental income is recognised to the extent that the associated services relating to the fees have been provided.

Interest revenue

Interest revenue is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

3. Significant accounting policies (cont'd)

(k) Goods and services tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except:

- (a) where the amount of GST incurred is not recoverable from the taxation authority, it is recognised as part of the cost of acquisition of an asset or as part of an item of expense; or
- (b) for receivables and payables which are recognised inclusive of GST.

Cash flows are included in the cash flow statement on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

(I) Critical accounting judgements and key sources of estimation uncertainty

In the application of the Association's accounting policies, which are described above, management is required to make judgments, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The State Council has engaged a third party property valuer, to determine the appropriate valuation techniques and inputs for fair value measurements. In estimating the fair value of these assets, the property valuer uses market-observable date to the extent available, to establish an appropriate fair value of the assets.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

(m) Capitation fees and levies

Capitation fees and levies are recognised on an accrual basis and recorded as a revenue and/or expense in the year to which it relates.

(n) Contingent Liabilities and Contingent Assets

Contingent liabilities and contingent assets are not recognised in the Statement of Financial Position but are reported in the relevant notes. They may arise from uncertainty as to the existence of a liability or asset or represent an existing liability or asset in respect of which the amount cannot be reliably measured. Contingent assets are disclosed when settlement is probable but not virtually certain, and contingent liabilities are disclosed when settlement is greater than remote.

(o) Going concern

The Association is not reliant on the agreed financial support of another reporting unit to continue on a going concern basis,

The Association has not agreed to provide financial supporting to ensure another reporting unit has the ability to continue as a going concern.

(p) Leases

The Association assesses whether a contract is or contains a lease, at inception of the contract. The Association recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets (such as tablets and personal computers, small items of office furniture and telephones). For these leases, the Association recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Association uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- •Fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- •Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- •The amount expected to be payable by the lessee under residual value guarantees;
- •The exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- •Payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

3. Significant accounting policies (cont'd)

(p) Leases (cont'd)

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Association remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

•The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

•The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using an unchanged discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used). •A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Association did not make any such adjustments during the periods presented.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Association incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under AASB 137. To the extent that the costs relate to a right-of-use asset, the costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Association expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the consolidated statement of financial position. The Association applies AASB 136 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'Property, Plant and Equipment' policy.

As a practical expedient, AASB 16 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement. The Association has not used this practical expedient. For contracts that contain a lease component and one or more additional lease or non-lease components, the Association allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

10. Property, plant and equipment (cont'd)

The revalued land and buildings consist of freehold land and building at fair value for the property at 72 York Street, Launceston, Tasmania 7250. Management determined that these constitute one class of asset under AASB 13 Fair Value Measurement, based on the nature, characteristics and risks of the property.

Fair value of the properties was determined by using market comparable method. This means that valuations performed by the valuer are based on active market prices, significantly adjusted for the difference in the nature, location or condition of the specific property. As at the date of revaluation on 14 June 2018, the properties' fair values are based on valuations performed by Opteon, an accredited independent valuer.

22. Financial Instruments

(a) Significant accounting policies

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 3 to the financial statements.

(b) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the State Council, who has built an appropriate liquidity risk management framework for the management of the Association's short, medium, and long-term funding and liquidity management requirements. The Association manages liquidity risk by maintaining adequate reserves, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Liquidity and interest risk tables

The following tables detail the Association's remaining contractual maturity from its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Association can be required to pay. The table includes both interest and principal cash flows:

	Weighted average effective interest rate	Less than 1 month	1-3 months	3 months to 1 year	1 – 5 years	Total
多数的数据数据数据数据数据数据数据数据数据数据数据数据数据数据数据数据数据数据数	%	\$	\$	\$	\$	\$
2021 Amortised cost						
Non-interest bearing	=.	80,231	-			80,231
		80,231		-	-	80,231
2020 Amortised cost						
Non-interest bearing	-	102,416	-	-	_	102,416
		102,416	-	-	-	102,416

22. Financial Instruments (cont'd)

(b) Liquidity risk management (cont'd)

The following tables detail the Association's expected maturity from its non-derivative financial assets. The tables have been drawn up based on the undiscounted cash flows of financial assets including interest that will be earned on those assets except where the Association anticipates that the cash flow will occur in a different period.

	Weighted average effective interest rate	Less than 1 month	1-3 months	3 months to 1 year	1 – 5 years	Total
	%	\$	\$	\$	\$	\$
2021 Amortised cost						
Non-interest bearing	-	777,391	=	-	=	777,391
Fixed interest rate instruments	0.55%		_	2,927,781	-	2,927,781
		777,391	-	2,927,781	-	3,705,172
2020 Amortised cost						
Non-interest bearing	-	691,866	:-	-		691,866
Fixed interest rate instruments	1.50%		======================================	2,888,776	<u>un</u>	2,888,776
		691,866	-	2,888,776	2	3,580,642

(c) Fair value of financial instruments

The fair values of financial assets and financial liabilities are determined as follows:

- the fair value of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices.
- the fair value of other financial assets and financial liabilities (excluding derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions.

The State Council considers that the carrying amounts of financials assets and financial liabilities recorded at amortised cost in the financial statements approximates their fair values.

(d) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Association. The Association has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults.

(e) Interest rate sensitivity analysis

The Association holds fixed interest rate investments.

As at 30 June 2021, the Association holds \$2,927,781 in a fixed rate term deposit. Interest rate exposure is minimal.

23. Subsequent events

There has not been any matter or circumstance occurring subsequent to the end of the financial year that has significantly affected, or may significantly affect, the operations of the Association, the results of those operations, or the state of affairs of the Association in future financial years.

24. Section 272 Fair Work (Registered Organisations) Act 2009

In accordance with the requirements of the Fair Work (Registered Organisations) Act 2009, the attention of members is drawn to the provisions of subsections (1) to (3) of section 272, which reads as follows:

Information to be provided to members or Commissioner:

- (1) A member of a reporting unit, or the Commissioner, may apply to the reporting unit for specified prescribed information in relation to the reporting unit to be made available to the person making the application.
- (2) The application must be in writing and must specify the period within which, and the manner in which, the information is to be made available. The period must not be less than 14 days after the application is given to the reporting unit.
- (3) A reporting unit must comply with an application made under subsection (1).

25. Segment information

The Association operates in one geographical location, Tasmania. All operating income is derived from member subscriptions. All costs are related to providing services to its members.
